

Pesticide Notification

The Battle Creek Public Schools has adopted an Integrated Pest Management program. Inherent with this are the District's efforts to reduce pesticide use as much as possible. While it may occasionally be necessary to apply a pesticide, these will only be used as a last resort and will always be applied after school hours.

You have the right to be informed prior to any regularly scheduled pesticide application that might be needed in your child/children's school. To receive notification, please complete the form provided by your school. If the form is not returned, you will not be notified. In an emergency, pesticides may be applied without prior notice, but you will be provided notice following any such application. If at any time you should have questions or concerns about pest management within your child/children's school, please contact the Facilities and Operations Department at (269) 965-9425
